Education

Babu Banarasi Das Northern India Institute of Technology (BBDNIIT), Lucknow, Uttar Pradesh Sep 2023 – Sep 2027
Bachelor of Technology in Computer Science Engineering
St. Fidelis College (ISC), Lucknow, Uttar Pradesh 2022
Intermediate Education — ISC Board — 83.4%

Experience

Dataman IT Solutions Feb 2026 – Mar 2026
Full Stack Developer Intern (MERN Stack)

- Contributed to web application development using the MERN stack across frontend, backend, and database layers.
- Integrated RESTful APIs and implemented CRUD operations to support core application features.
- Worked with MongoDB, Express.js, React.js, and Node.js for full-stack development and database operations.
- Supported debugging, testing, and performance optimization to improve application reliability and responsiveness.
- Used Git and GitHub for version control and collaborative development workflows.

Projects

Stayora: Full-Stack Rental Listing Platform *Node.js, Express.js, MongoDB, EJS, Passport.js, Mapbox, Cloudinary*

- Built an Airbnb-inspired full-stack web application supporting property listing CRUD, user authentication, and booking workflows.
- Integrated Mapbox for geocoded interactive maps and Cloudinary with Multer for cloud-based image uploads.
- Implemented session-based authentication with Passport.js, route protection, flash messaging, and MongoDB-backed session storage.
- Developed search and filter functionality for keyword, location, price range, and category-based discovery.

Rock Paper Scissors: Interactive Browser Game *HTML, CSS, JavaScript*

- Built a browser-based game with real-time score tracking, responsive UI, and dynamic result updates.
- Implemented game logic with randomized computer moves and event-driven DOM manipulation.
- Designed a clean and responsive interface to ensure smooth gameplay across device sizes.

To-Do List App: Task Management Web Application *HTML, CSS, JavaScript, Local Storage API*

- Developed a responsive task management application with add, edit, delete, and complete task functionality.
- Used Local Storage API to persist user data across browser sessions without backend support.
- Added progress tracking, completion counters, and visual feedback to improve user experience.

Technical Skills

- **Languages:** C++, Java, JavaScript, TypeScript, Python, C, SQL, HTML, CSS
- **Frameworks & Libraries:** React.js, Next.js, Express.js, Tailwind CSS
- **Technologies:** MERN Stack, MongoDB, Node.js, REST APIs, JWT Authentication, Convex
- **Tools:** Git, GitHub, VS Code, Figma, Canva

Achievements

- Certified by Meta in Programming with JavaScript, Version Control, and Introduction to Front-End Development.
- Solved 100+ DSA problems across LeetCode, CodeChef, and GeeksforGeeks.
